Biohit Proline® Plus

The experienced R&D personnel of Biohit have combined the innovative ideas from the early years with new, modern pipette design and technology to create the Proline Plus. Particular emphasis has been put on safety, ergonomics, and efficiency in pipetting, as well as on the high quality of the device.

The Proline Plus pipette family offers a wide variety of both fixed and adjustable volume models for every laboratory, ranging in volumes from 0.1 µL to 10 mL. The new Proline Plus incorporates 25 years of experience including a unique combination of novel and patented features.

- Available in single-channel and multichannel
- Reduced pipetting forces prevent RSI and improve results
- Accurate and precise pipetting
- Contamination-free pipetting with Safe-Cone Filters
- Robust design
- Fully autoclavable
- Optiload tip sealing in all multichannel pipettes
- Uses both Biohit brand and other major brands of pipette tips
- Fixed volumes available in single-channels
- Simple and easy to maintain

The economic and ecologic refill system

- The New Refill System from Biohit is environmentally friendly with completely recyclable packaging.
- The tip trays are easily transferred from a space-saving tower or refill pack to the tip boxes.
- The Refill Pack range covers the five most popular tip sizes.
- Tips fit most major pipettors.

New tip boxes

- The new rigid and strong polypropylene boxes and trays are fully autoclavable.
- The tray holds 96 highest grade non-wettable virgin polypropylene tips in a 8 x 12 microplate format.
- The new flip-top boxes are single-hand operated for opening and closing.
- Refill trays snap securely into boxes.
- The color coding of the tip trays allows immediate tip volume recognition.
