

There Is Only One Thermo Scientific ROSS™: Accept No Substitutes

The pH electrode for every application – Thermo Scientific ROSS™ Electrodes

Experience the accuracy and trouble-free results from using the ideal electrode suited for your application!*

Purchase a **Thermo Scientific ROSS Electrode** and receive a **free buffer calibration kit!**

Application	Cat. No.	Description	Advantage
Agar Plates, Cheese and Meats	8135BN	ROSS Flat Surface, epoxy-body electrode	Flat surface for surface contact, and no silver in reference to interfere with possible sulfates or proteins.
Creams, Gels and Emulsions	8172BNWP	ROSS Sure-Flow glass-body electrode	Free-flowing junction assures the most stable, drift-free measurements. Easy to clean junction never clogs.
Drinking Water / General Purpose	8104BN	ROSS combination glass-body with rugged bulb	The features and accuracy of a ROSS with a durable sensing bulb.
Low Ionic Strength: Boiler Water, Well Water, Distilled Water	8157BNUMD	ROSS Ultra pH/ATC epoxy-body electrode	The features and accuracy of a ROSS with the convenience of a triode.
Pharmaceutical	8102BNUWP	ROSS Ultra combination glass-body	Superior stability, accuracy and stability with best temperature performance. Tris, protein and sulfide compatible.
High Viscosity: Slurries and Sludges	8165BNWP	ROSS Sure-Flow epoxy-body electrode	Free-flowing junction assures the most stable, drift-free measurements. Easy to clean junction never clogs.
Wastewater / Seawater	8172BNWP	ROSS Sure-Flow glass-body electrode	Free-flowing junction assures the most stable, drift-free measurements. Easy to clean junction never clogs.

Free pH Buffer Calibration Kit (810199):

Include 475 mL bottles of 4, 7 and 10 buffers and ROSS storage solution

It's easy to redeem. Simply place your order, complete the redemption form below and fax along with your invoices or packing slips to 978.232.1042
